ARABIAN DATES • DATE INGREDIENTS • ORGANIC DATE INGREDIENTS

Al Barakah Dates Factory offers a wide range of ingredients to more than 75 countries, internationally.

Our quality management system ensures we maintain high quality standards of ingredients we market. All our date ingredients are in compliance with international food regulations.

Food & Quality Accreditation

Al Barakah Dates is proud to be the Middle East's first 'Grade A' BRCGS Food Certified Dates Factory.

The Brand Reputation Compliance Global Standards (BRCGS) Food Safety Standard is an industry benchmark to manage product safety, integrity, legality and quality. It introduced the GFSI Benchmarking process, which is highly recognised in the food industry worldwide.

We are members of Sedex, one of the world's leading ethical trade service providers, working to improve working conditions in global supply chains.

Our facility is Halal Food Certified by the Emirates Authority for Standardization and Metrology (ESMA) and Kosher Food Certified by KLBD, United Kingdom.

CERTIFICATED

Factory At A Glance

Our 200,000 square foot world-class facility located in Dubai Industrial City in Dubai, U.A.E. is the definition of technological advancement and automation.

We have dedicated dates sorting, washing, and packaging lines and state-of-the-art date paste and date syrup production lines along with other production lines that are continuously being commissioned and updated. Our range of packaging varies from 50g thermoform packs to bulk 1,300kg IBC tanks. Given our rapidly-increasing production capacity and advanced technology, we can cater to our individual clients' needs and requirements.

One of our key strengths at Al Barakah Dates Factory is our capacity to store more than 40,000 metric tons of dates in our cold stores, enabling us to retain the freshness of our dates throughout the season.

In April 2021, Her Excellency was joined by Saleem Mohamed and Yousuf Saleem, Chairman and Managing Director of Al Barakah Dates, and Saud Abu Al Shawareb, Managing Director of Dubai Industrial City. The delegation reviewed the company's plan to build the world's largest solar-powered dates factory that will cover 600,000 sq. ft and process over 100,000 tonnes of date and date products annually.

All our product packaging is done in-house using advanced machinery. In addition to our regular range of packaging, we can mix and match various types of dates in different packaging based on client needs.

Our packaging ranges from dates packed in loose 20kg bags, 10kg cartons, 1kg thermoform packs, to 50g distribution packs, etc. We also entertain private labeling for certain quantities.

Saudi Dates

Our dates are carefully selected in order to ensure quality products and guarantee freshness. The following dates are the usual varieties we carry in range. With each season, we add more Saudi Arabian varieties.

Packed Dates

We have an exciting new range of our best-selling Arabian dates stored in convenient 500g (17.6 Oz) pouches.

ALSO AVAILABLE IN ORGANIC

We package our Organic Date Syrup in 470ml easy-squeeze bottles. The bottles are available in a carton that carries 12 bottles.

World's First Solar Powered Dates Factory

In our efforts to become a more sustainable and environmentally responsible organization, we are proud to be the world's first date factory to run on solar power. We have installed more than 3,000 solar panels across the roof of our factory which generates over 1,770 Mwh/year.

Our diesel boilers and being converted to gas boilers to stop harmful emissions and avoid the storage of diesel within our facility.

Worldwide Reach

Al Barakah Dates exports date ingredients to over 75 countries, and counting. We take pride in our partnerships that span across continents. We offer end-to-end logistics whether it concerns warehousing, re-packing or transportation by air, road and sea.

We provide risk management and trade finance solutions to support growth and strengthen long term partnerships with both our suppliers and customers.
